Limited review report
On the interim condensed financial statements

To the Board of Directors of Middle East Glass Manufacturing Company S.A.E.

Introduction

We have conducted a limited review for the accompanying interim condensed statement of financial position of Middle East Glass Manufacturing Company S.A.E. (the "Company") as of 30 September 2026 and the related interim condensed statements of profit or loss, comprehensive income, changes in equity and cash flows for the nine-month period then ended. Management is responsible for the preparation and fair presentation of these interim condensed financial statements in accordance with the Egyptian Accounting Standard 30 "Interim financial statements", and our responsibility is limited to expressing a conclusion on these interim condensed financial statements based on our limited review.

Scope of limited review

We have conducted our limited review in accordance with the Egyptian Standard on Review Engagements No. 2410 "Review of Interim Financial Statements Performed by the Independent Auditor of the Entity". A limited review of interim financial statements consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other limited review procedures. A limited review is substantially less in scope than an audit conducted in accordance with Egyptian Standards on Auditing and consequently does not enable us to obtain assurance that we would become aware of all significant matters that might be identified in an audit. Accordingly, we do not express an audit opinion on these interim condensed financial statements.

Conclusion

In light of our limited review, nothing has come to our attention that causes us to believe that the accompanying interim condensed financial statements are not prepared, in all material respects, in accordance with Egyptian Accounting Standard 30 "Interim financial statements".

1. General information

Middle East Glass Manufacturing Company (S.A.E.) (the "Company") was established in 1979 as an Egyptian joint stock Company under the provisions of Law No. 43 of 1974 as amended by Law No. 230 of 1989 as amended by Law No. 8 of 1997 and is registered in the commercial register under number 193770 Cairo. The address of the Company's registered office is Nasr City, 6 Mokhayam El-Daem Street 6th District, Industrial Zone, Cairo – Arab Republic of Egypt.

The Company's term is 25 years, starting from 20 January 2004 till 19 January 2029.

The Company is listed on the Egyptian Stock Exchange (EGX).

Company's main activity is the production of all types of glass containers. The company may engage in the sale and export of its products in glass containers and carry out all direct industrial or commercial supplemental activities that are licensed for this activity. The company may have Authority or participate in any way with entities that carry out similar activities or cooperate with them in their purpose in Egypt or abroad. It may also be followed by approval from General Authority of Investment.

The parent of the Company is MENA Glass Holdings Limited with 93.01% ownership.

On 27 July 2025, the Company received the report of the committee established by virtue of the Minister of Investment and International Cooperation no. 95 for the year 2018 regarding the verification of the validity of the initial valuation of the assets and liabilities for the purpose of merging the Merged Companies and the Merging Company at net book value based on the companies' financial statements of 31 December 2024 and which was unanimously approved by the Board of Directors.

The Company merged its subsidiaries listed below (the merged companies) into its parent company, Middle East Glass Manufacturing Company (S.A.E.) (the merging company), based on the approval of the Extraordinary General Assembly held on October 19, 2025, and based on the resolution No. 737 of 2025 of the Chairman of the General Authority For Investment and Free Zones (Economic Performance Department), issued on July 27, 2025 . The merged companies were deleted from the commercial register on December 30, 2025. The merger was accounted for at the book value of the net equity of the merged and merging companies, as per the financial statements as of December 31, 2024.

List of merged subsidiaries

- Middle East Glass Containers Sadat
- MEG Misr for Glass MEG (S.A.E.)
- Misr for Glass Manufacturing S.A.E.

On 23 December 2025, General Authority For Investment and Free Zones approved merging the subsidiaries into its parent company at net book value based on the companies' financial statements of 31 December 2024 with paid up capital for the merged company with total amount of EGP 62,627,993.

These interim condensed financial statements were approved by the Board of Directors of the Company on 3 November 2026.

2. Summary of significant accounting policies

The principal accounting policies adopted in the preparation of these interim condensed financial statements summarized below. They were applied consistently over the presented financial periods unless otherwise stated:

2.1 Basis of preparation of the interim condensed financial statements

This interim condensed financial statements for the nine -month reporting period ended 30 September 2026 have been prepared in accordance with Egyptian Accounting Standard 30 "*Interim Financial Statements*".

The company finalized the merger of all its subsidiaries into its parent company, Middle East Glass Manufacturing Company (S.A.E.) (the "Merging Company"). The merged entities were officially delisted from the commercial register on 30 December 2025. The merger was accounted for at the book value of the net equity of the merged and merging companies, as per the financial statements as of December 31, 2024.

The merger, effective from 1 January 2025, has prompted management to present the profit or loss comparative figures for the period ended 30 September 2025 on a consolidated basis for the merged entities. This approach was adopted to provide more meaningful and relevant comparative information post-merger. The comparative figures have been combined, as the consolidated amounts are substantially consistent with the merged presentation, with only immaterial differences. The current period financial statements fully reflect the impact of the merger in accordance with applicable accounting standards and regulatory requirements.

This interim condensed financial statement does not include all the notes of the type normally included in an annual financial statement. Accordingly, this interim condensed financial statement is to be read in conjunction with the annual financial statements for the year ended 31 December 2025 and any public announcements made by the Company during the interim reporting period.

3. Segment information

The Company's activities are organised into one segment which is wholly related to the manufacturing and sale of glass containers. This is in accordance with the presentations to the Board of Directors. Therefore, entity wide information required under EAS 41 "operating segments" are already included in the financial statements. No other information required to be disclosed.

11. Liquidity risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they fall due, due to a shortage of funding. The Company's exposure to liquidity risk results primarily from the mismatching of the maturities of its assets and liabilities.

Management makes cash flow projections on periodic basis, and take the necessary actions to negotiate with suppliers, follow-up the collections from customers and manage inventory balances in order to ensure sufficient cash is maintained to discharge the Company's liabilities. The Company's management monitors liquidity requirements to ensure it has sufficient cash and cash equivalents to meet operational needs while maintaining sufficient cash cover to meet the cash outflows to settle the obligations of loans and borrowings to be able to maintain financial terms, guarantees and covenants at all times.

The Company limits liquidity risk by maintaining sufficient bank facilities and reserves, by monitoring cash forecast and actual cash flows and matching the maturity profiles of financial assets and liabilities. Balances due to suppliers are normally settled with an average of 120 days from the date of purchase.

13. Significant events during the period

- The Monetary Policy Committee of the Central Bank of Egypt decided, in its meeting held on Thursday, 12 February 2026, to cut key policy rates by 100 basis points. Accordingly, the overnight deposit rate, overnight lending rate, and the Central Bank's main operation rate were reduced to 19.0%, 20.0%, and 19.5%, respectively; the discount rate was also reduced to 19.5%. In addition, the Board of Directors of the Central Bank decided to lower the reserve requirement ratio that banks are required to maintain with the Central Bank of Egypt from 18% to 16%. These decisions reflect the Committee's assessment of the latest inflation developments and expectations since its previous meeting.

- On February 28, 2026, the United States and Israel entered into a direct military confrontation with Iran, which subsequently escalated into wider regional clashes involving several Gulf countries. These developments are anticipated to have material economic implications for global markets and, in particular, for the Middle East region. The Company's management is continuously monitoring the situation to evaluate any potential impacts on the Company's operations and financial performance.
